2ND ANNUAL ARCHITIZER A+ AWARDS WINNERS ANNOUNCED

Studio Fuksas, Zaha Hadid Architects, and BIG Among Winners to be Honored at Award Gala May 15th

New York City - April 1, 2014 — Architizer announces Zaha Hadid Architects, Studio Fuksas, SOM, and BIG among the winners of the 2nd Annual A+ Awards. A total of 129 firms and companies are represented among the winning projects, as decided by Juried and Popular Vote in 60+ categories. Alongside honorees, A+ Award winners will be recognized at the Architizer A+Awards Gala on May 15th in New York City.

Comprising diverse and innovative global projects from starchitects to emerging firms, this year's winners represent the best new architecture, interiors, and products. A highly-esteemed jury of over 300 industry leaders including Yves Béhar, Paola Antonelli, Liz Diller, Joseph Altuzarra, David Rockwell, Rem D. Koolhaas, and Ian Schrager selected the Jury Winners, while an online public vote determined the Popular Choice winners, with votes from over 100 countries and territories.

"This year our 129 winners are a celebration of the breadth of architecture's influence and are an extraordinary cross-section of the relevance and innovation of the field of architecture." — Marc Kushner, CEO Architizer

In addition to the A+ Awards, Architizer also presents Special Achievement Awards to those who have raised awareness and made various contributions within the field. Among last year's honorees were Richard Meier (Lifetime Achievement), Iwan Baan (Relevance Award), and Friends of the High Line (Advocacy Award).

Notable Architizer A+ Award winners include:

Winners will be celebrated at a red carpet ceremony at Highline Stages in **New York City on May 15** during NYCxDESIGN. The celebration will continue with an after party at the Top of The Standard at The Standard, High Line. Winners will accept their awards by delivering a 3-word manifesto in the tradition of the Multifesto, a communal design manifesto by 2x4. Following a simple mad lib format, verb + preposition + noun, the Multifesto frames design as a verb, an active engagement with the world around us.
